RE: Missing Pucks

Due to repeat incidences of missing pucks or extremely limited numbers of pucks at VRC this year the Executive Committee has passed a motion regarding pucks. Teams will be responsible to either pass the pucks on to the team taking the ice after them or locking them up in the locker if there is no VRC ice slot after their practice or game. The locker combination is 1966 and the lock MUST be engaged once the pucks are placed in the locker. If a team does not have pucks for the start of their practice or game then the team that had the last ice slot prior to them will be fined \$50 as a first time offence. Team managers are to notify the VRC Manager Liaison immediately if they do not have pucks for their ice slot.

Thank you,

VRCMHA Exec
